OUR STORY

In the annals of creative entrepreneurship, the saga of Cretekala stands as a testament to ingenuity and vision. Founded in 2019 by Siddhant Borade, a civil engineer, his illustrious journey began with an unforeseen spark of creativity. With his civil engineering background, concrete became the natural medium for his artistic expression. Siddhant's instinct led him to craft a BBQ table, igniting a passion for creativity. Inspired by an architect's challenge, he collaborated to pioneer a durable concrete mix, resulting in a stylish range of products such as planters, basins, bathtubs, and countertops.

Five years later, Cretekala stands as a leader in decorative concrete industry. What began as a solo venture has evolved into a vibrant team of 40, reshaping the industry's landscape with unparalleled innovation and creativity.

Table Top **Customised**

At Cretekala concrete products, we believe in personalized service that goes beyond customization options. From initial consultation to delivery, our team is committed to understanding your vision, addressing your needs, and providing expert guidance throughout the customization process. We pride ourselves on creating concrete products that not only enhance your space but also reflect your unique style and preferences.

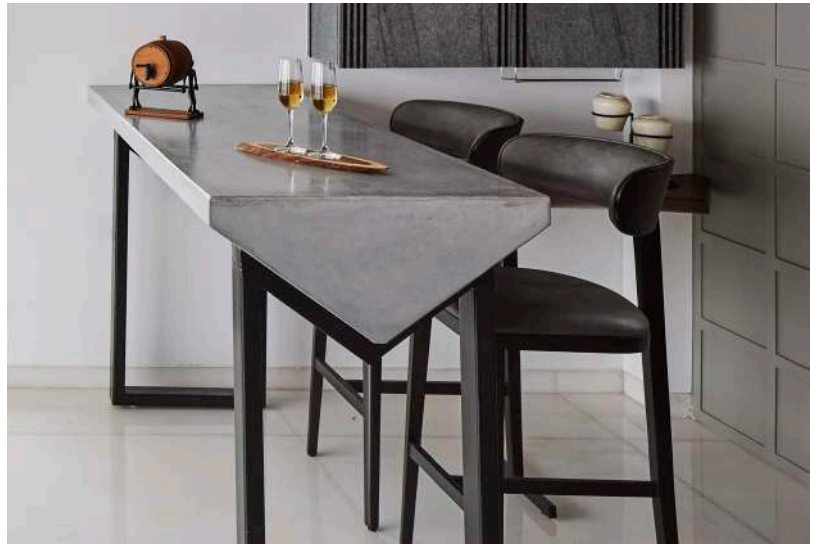

Our custom low-height concrete table, crafted to perfection, combines timeless elegance with sturdy construction for durability and style, elevating any space with its unique charm and functionality. Designed with meticulous attention to detail, it stands out in any environment.

Project for: Ar. Nakul Munim, Alibaug

"Crafted with precision and tailored to perfection, our unique concrete Bar Counter boasts a subtle bend at the end, adding a touch of individuality to your space."

Project for: Avvo Architects, Mumbai

A bespoke concrete display table for JSW Steel combines sleek design and firm construction, offering a striking platform for showcasing products. It epitomizes modern elegance and durability.

Project for: JSW, Bangalore

"Exciting news! Our two concrete products were showcased in the prestigious India Design Week Soil Collection, perfectly complementing Tera, Asian Paints' Color of the Year 2024, with contemporary design and natural inspiration."

Project for: Asian Paints, Delhi

The artisanal countertop features a captivating rock edge finish, showcasing nature's artistry. Customized to the client's desires, it exudes raw, organic charm, elevating the space with distinctive allure.

Project for: Morph Lab

The 24-seater concrete dining table symbolizes refined taste and elegance, offering an immersive dining experience that celebrates craftsmanship and design excellence. It invites guests to indulge in the art of hospitality at its most lavish.

Sea Shades

FINISHES

Pitted (Travertine)

Crafted with a technique, this finish embodies the raw beauty of concrete, with air pockets lending a delightfully organic texture.

Polished

Through meticulous detailing and a delicate polish, this finish achieves a refined elegance, offering subtle variations that captivate the eye.

Exposed

This finish undergoes a gentle grind to reveal the captivating essence of sand particles or specific aggregate, adding depth and intrigue.

Rammed Earth

By layering and compacting with a blend of colors, this finish evokes the timeless allure of traditional rammed earth construction, infusing spaces with warmth and character.

Painted finish

Our products can be painted to achieve virtually any colour, including two-tone, patterned and textured paint finishes. Choose any color as per the shade card.

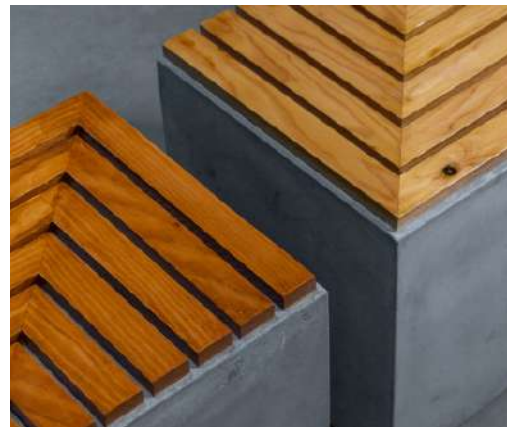

Terrazzo

A harmonious fusion of diverse particles, this finish exudes a sense of playful sophistication, marrying texture and color in a mesmerizing symphony of design.

ACCESSORIES

Timber Options

We use imported lpe and western red cedar for all timber seating units (unless specified differently). They produce a wavy grain and their striking appearance as well as its natural durability and strength makes it a popular choice for the architecture, interiors and construction industries. All timber is sealed with sealer of a good quality.

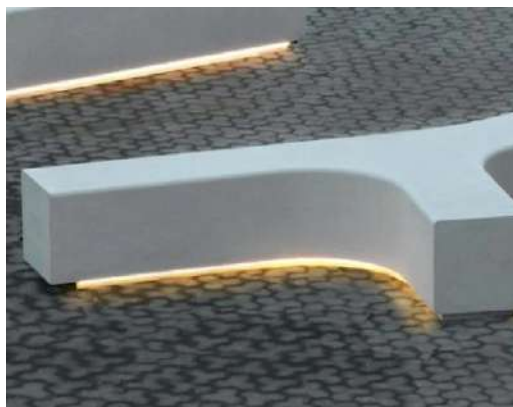

Upholstered

Upholstered seating inserts can be added to our benches or where a timber alternative is not required. Upholstered inserts facilitate a smooth transition for our bench seats, circular seats, and seat planters from outdoor to indoor spaces. They also offer a durable and comfortable seating option for exterior landscapes.

Castor wheels and planter boxes

If there's a need to move planters or furniture occasionally, we can install castor wheels on their bases. Usually, two out of the four casters come with integrated brakes. However, please note that not all planters, planter boxes and furniture can accommodate castors. Feel free to reach out to our sales team to explore your specific needs.

Led strip light

During manufacturing, we have the capability to incorporate custom block outs into the base of certain planter designs, kitchen counter units, and seating ranges. This enables the creation of a recessed area for the seamless installation of LED strip lights on-site.

KNOW MORE

Material

Our products are made with High Performance Concrete technology that is specially designed for better surface finish, durability and longevity in interior & exterior spaces. All our products can be used indoors, outdoors and in wet areas.

Maintenance

All our products are sealed and finished in a temperature controlled chamber. You may clean with soap water and without any abrasive tools. Avoid cleaning with acidic detergents. To enhance the look & resistance of the product, apply our proprietary Crete-X Coat at regular intervals of 2-3 months or as per usage.

Finish

The focus at Cretekala Studio is to maintain the natural beauty of concrete. This includes colour movement/variation and the potential for small air pockets (also known as pitting) on the exterior of the products. Samples provided are for reference and minor variations can be expected on larger pieces.

Lead Time

For made-to-order and custom products, lead time is usually 2-3 weeks. We deliver pan-India.
